

# FABRICMASTER

Total Fabric Control from Roll to Revenue

*Precision Inventory Management for the Apparel & Textile Industry*

## Stop Losing Time & Money on Fabric Chaos!

Struggling with inaccurate stock counts, lost rolls, or delayed orders? You're not alone.

FabricMaster eliminates the guesswork with **South Africa's leading fabric-specific inventory solution**, designed *by* the industry, *for* the industry.

---

## Your Fabric, Your Control: Core Features

-  **Roll-Level Precision**  
Track every roll by **dye-lot, grade, type & barcode**. Split rolls, attach images, and process in-transit stock.
-  **Smart Costing & Valuation**  
Real-time stock valuation & costing in **local or foreign currency**. Know your exact profit/loss *per fabric*.
-  **Streamlined Operations**  
Issue fabric by sales order, branch, or sample. Manage **purchase orders & reservations** seamlessly.
-  **Actionable Intelligence**  
Generate **packing slips, barcode labels (railway/mail/fabric)**, and scan rolls at point of issue.

# Powerful Reporting: Make Data-Driven Decisions

| Colour | Shade | Total MTS | Reserved |
|--------|-------|-----------|----------|
| ASSORT |       | 143.90    | 0.00     |
| BLACK  |       | 350.90    | 0.00     |

Reserved Metres: 0.00    MTS Total Metres: 493.90    Balance (Total - Reserve): 493.90  
Total Received: 26176.97    No. of Rolls: 52    Total Value: 369,000.00

| Rollcode | FABCODE | SEQ | COLOUR | MTS   | COST   | ROLLDATE   | DYELOT | Gross Weight |
